School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.

An IPM plan is required if a school district uses pesticides¹

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level;

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	9	Ľ	Q	v	U	V		Sanitation
Spiders			Q	2	Ø	D		Sanitation
Roaches	2			1		0		Sanitation
Gopher/Squirrel		민	Q		2			Sanitation
Rodents	P			P		V		Sanitation
		Q				Q		

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This pahaol district avacate the following posticides (nonlicide

list includes pesticides that will be applied by school district staff or licer	nsed pest control businesses.):
